

Below are details on how to log into the online banking, as well as details about our featured online services.

Initial Login Instructions

There will be a few setup steps you will need to complete in order to login to your online banking for the first time.

1. Browse to the bank's homepage at www.fnbbarry.com
2. Find the login section on the top left
3. Click on "New User" in the login in section.
4. The system will ask to fill out a registration form. Once you are finished with that you will then submit the form to us. Once we approve your request you will receive an email to finish your registration.
5. The system will then walk you through an initial registration process. You will choose new security questions, a new security image, a new security phrase, and a new password.

Online Banking Featured Services

Pay a person

This convenient feature allows you to make person-to-person payments electronically to anyone you choose, such as a landlord, baby-sitter or relative.

How it works:

Choose the option that's best for you.

- Provide the recipient's email address and a secure password of your choosing. The recipient then logs in to a secure site using that password and provides the required account information. A payment is deposited electronically from your account into the recipient's account.
- Provide the recipient's bank routing number and deposit account information and a payment is sent electronically.
- Provide the recipient's mailing address and a paper check will be mailed.

Why it's a new level of simplicity:

Sending money electronically is faster, more convenient and more secure than sending a check. And even when a paper check is necessary, online bill pay can save you time. That's because we mail your check directly to the recipient, which saves you a trip to the post office.

How to get started:

When you add a payee, simply choose to add an individual rather than a company or business.

COMING SOON

Transfer money (with upgraded features)

Our money transfer feature now allows you to transfer funds from bank to bank. Securely and easily transfer funds electronically, from one deposit account to another.

How it works:

You move money where you need it, when you need it—anywhere, anytime, right from your online bill pay account. Depending on your needs, you can set up one-time or recurring transfers between accounts at this institution or to/from accounts at other institutions.

Why it's a new level of simplicity:

This helpful feature eliminates the need for more expensive wire transfers and the hassle of written checks. It's a quick, secure and flexible way to manage your funds and accounts online.

How to get started:

Select "Add Account" in the "Transfers" tab. Once the setup process is complete, you can transfer funds to or from that account.

Again, The First National Bank of Barry is proud to offer these exciting upgrades to our online banking service. We appreciate your business, and hope that you'll find the new service convenient and easy to use.

Should you have any questions or concerns, please feel free to contact us.

Sincerely,
The First National Bank of Barry
